```

```
root.mainloop()
```

OUTPUT :

The screenshot shows a window titled "Event Registration Form" with a light pink background. The form contains the following fields and controls:

- Name:** A text input field.
- Email:** A text input field.
- Phone:** A text input field.
- Select Event:** A dropdown menu currently showing "Conference".
- Ticket Type:** Radio buttons for "Regular" (selected), "VIP", and "Student".
- Meal Preference:** Radio buttons for "Veg" (selected), "Non-Veg", and "Vegan".
- Workshops:** Checkboxes for "AI Basics", "Data Science", and "Cyber Safety".
- Payment Method:** Radio buttons for "UPI" (selected), "Credit Card", and "Cash".
- Transaction ID:** A text input field.
- Address:** A large text input area.
- Comments:** A large text input area.
- Buttons:** "Submit" and "Reset" buttons at the bottom.
